THE PAY ROLL OF THE UNIVERSITY FOR FEBRUARY

Chancellor Observes Rider but Board of Trustees Disregard Law and Sidestep Legislative Mandate as to Salary of Secretary. Brewer Administration Required Treasurer To Pay Interest on Monthly Balances. Total Appropriations.

The Sentinel gave last week the pay roll for the month of February of the A. & M. College.

As a still further proof that this paper wants to give the taxpayers a look on the inside, and in keeping with the purpose of the Editor of The Sentinel to show that there can be no excuse for not cutting out some offices and cutting expenditures, the pay roll of the University is being published in this article.

House Bill No. 363 carrying an appropriation for the University for the years 1922 and 1923 carries this clause, "Provided that the salary of the head of this institution shall not exceed \$4800.00 per annum; and provided further, that the secretary shall not receive more than \$2500.00 per annum."

To Chancellor Powers' credit it can be said that he is observing the law. He is not attempting by subterfuge or otherwise to whip the devil around the stump and to get more than \$4800 under another name or out of distinct and separate funds.

But it will be seen that the pay roll shows no "secretary" as referred to in the rider quoted from House Bill No. 363, but that it does show a "business manager and treasurer" under the head of "Business Department". Regardless of by what name the office is called, that official still discharges the duties of secretary.

During the early days of the administration of former Chancellor A. A. Kincannon and while Gov. Vardaman was serving as president of the board of trustees, the duties and the obligations of the Secretary were enlarged and Hon. D. L. Ross was named for the place. Mr. Ross remained as secretary until about the third year of the Bilbo administration. But until the administration of Gov. Russell, the office of secretary never paid over \$2,000.

There is no law on the statute books of the State providing for a "business manager and treasurer" at the University, hence it is apparent that the board of trustees presided over by Gov. Lee M. Russell must have deliberately substituted the words "business manager and treasurer" for the specific purpose of overriding or side-stepping the legislative intent as shown in the rider to House Bill No. 363, above quoted.

Regardless of by what name the office of "secretary" is called, that official still discharges the duties of secretary, an office, which is primarily intended to keep the books on the funds and expenditures of the University.

The ipse dixit of the board of trustees cannot set aside the laws of the State. Section 5029 of Chapter 146, Code 1906, provides for the election of a treasurer of the University and defines his duties. The University is the only one of the State educational institutions where the law specifically designates a treasurer separate and apart from any other officer. Surely the board of trustees have overridden a plain mandate of the law and at the same time are paying a man to keep the funds of the University.

During the administration of Gov. Earl Brewer, the board of trustees passed an order requiring the treasurer of the University to pay interest on the deposits of the University, and as a result several hundred dollars was realized yearly for the institution from that source. And, by the way, that was the first time that a treasurer had ever been required to pay interest on monthly balances. One of the banks of Oxford usually handles the money and no doubt a similar thing is being done today.

Under the head of "operative department", it will be seen that \$208.33 is the monthly salary of the "proctor", which is equivalent to \$2500 per year. The "proctor" is not required to do very arduous labor. Perhaps three hours a day on an average will cover all the time he puts in. Until the administration of Gov. Russell, a proctor was hardly paid over \$75 per month and generally the place went to some student

who was trying to work his way through the University.

The offices of secretary, "business manager and treasurer" and proctor are referred to not to reflect on the gentlemen discharging the duties of these places, but to still further emphasize the reckless waste of the taxpayers' money and to show how the present administration has undertaken to reward its favorites at the expense of the public.

It is fair to assume that if there are two or more being overpaid which can be readily pointed out, that there are numerous others "hid out" on the pay rolls, or which cannot be so easily designated.

It will be observed that the "business manager and treasurer" is being paid more than any member of the faculty, outside of Dr. Hume, vice chancellor, except two members of the law faculty, and that these are only paid what the "business manager and treasurer" is.

Here are such men as Drs. Bonduant, Milden, Bishop, Heddeston, Bell and Longest, who have been with the institution for a number of years; men who spent years in equipping themselves for University work and men of ripe scholarship and of exceptional ability, see their work discredited and their term of service disregarded when a new man is picked up and put in a purely clerical job and paid more than they are. What are the incentives to scholarship?

And, as this paper understands, the "business manager and treasurer" is given one of the most desirable residences on the campus without charge when all the department heads and faculty members have not residences. This residence means an addition of about \$480 to his salary.

This paper feels that the gentlemen who are discharging the duties of "business manager and treasurer" and of "proctor" are competent and are faithful, but that is not the sole question. There is no trouble to find men with these qualifications, but the plain proposition is that the State should pay no more for a like service than a private concern, or a private individual would pay for the same thing.

Some observations might be made about some officers on the pay roll, but this is sufficient for the present.

This is enough to awaken the taxpayers to show them another source of waste of public money. No wonder taxes are high.

The total appropriation for the University for each of the years 1922 and 1923 was \$154,028.49.

UNITED CHARITIES ORGANIZED IN GRENADA

Mr. John Borden Actively Behind the Organization. A Most-Worthy and Commendable Undertaking. The Officers.

The United Charities of Grenada is an organization just the other day formed, the by-laws, which will more fully explain its details and purposes, is published below.

It is said that Mr. John Borden made available at once \$5,000.00 for the organization and that it is stated that a voluntary guarantee is given that as much as \$10,000.00 will be available each year for use of the organization.

This is but another organization which shows the heart-life of Grenada. It is another organization, too, that shows the public spirit and the generosity of soul of Mr. John Borden and that still further emphasizes his identity with Grenada and his interest in the general welfare of this section. Mr. Borden is not a man of idle words but he is one of positive deeds. He recognizes what he regards as a need and at once proceeds to take action that will meet the needs.

The others associated with Mr. Borden are also to be commended. These people are known for being ready to respond to the cry for help or the call to duty, and are to be commended for associating themselves with Mr. Borden in this philanthropic movement.

The officers are: President, John Borden; Vice President, R. W. Jones; Secretary, A. G. Roane; Treasurer, J. T. Thomas; Corresponding Secretary, Miss Estelle Rollins; Directors, John Borden, R. W. Jones, A. G. Roane, J. T. Thomas and H. J. Ray.

The following was named as a Care Committee: Mrs. W. D. Salmon, Mrs. J. T. Keeton, Mrs. W. B. Hoffa, Miss Lida Coffman and Miss Elizabeth Jones.

The following are the by-laws adopted:

The purpose of this corporation is to extend financial assistance to needy and worthy residents of such Mississippi Counties as may be or become members of the North Mississippi Fair Association, and in furtherance of this object there shall be no discrimination because of race, color or religious belief.

In order to carry out this work, the control of this corporation shall be vested in a President, a Vice President, a Secretary, a Treasurer, and a board of five (5) directors, four (4) of whom shall be the officers just mentioned.

Directors shall be elected by the directors at an annual meeting, which shall be held on the second Tuesday after the first Monday of January of each year, and shall hold office for one year or until their successors are elected.

Officers shall be elected annually at the same time in the same manner.

Regular monthly meetings shall be held, in addition to the annual meeting, at such time and place as may be decided upon.

At all meetings three (3) directors personally present shall constitute a quorum. There shall be no voting by proxy.

Special meetings may be held at any time upon call of the President on his own initiative or at the request of any director.

Sufficient notice shall be given of all meetings.

The President shall preside at all meetings and shall make all appointments.

The Vice President shall fulfill the duties of the President in the absence of the latter, except that the Vice President shall have no power of appointment.

The Secretary shall keep a true record of all meetings of the board.

The Treasurer shall have custody of the corporate funds and shall account therefor. He shall give bond in such amount as the board may determine, and shall only make disbursements upon order of the board.

In addition to the officers already mentioned the Board may in its discretion create the following offices, to-wit:

Assistant or Corresponding Secretary.
Assistant Treasurer

AFRICAN MISSIONARY AND WIFE VISIT HERE

Rev. Gail Beanland Preaches. His Wife Talks. Conditions in Cameroun, Wild Animals and the Natives.

Rev. Gail Beanland and his wife were in Grenada last Saturday, Sunday and Monday. Mr. Beanland filled the pulpit at the Presbyterian church Sunday morning and accepted the invitation of the pastor of the Methodist Sunday School Sunday. Johnson, to preach at the Methodist church Sunday night. Both sermons were highly interesting and instructive and breathed a thorough missionary spirit.

Mrs. Beanland made a talk to the Methodist Sunday School Sunday. She is a sequelly interesting as her husband. They were both at the public school building Monday morning and both made most happy and most pleasing talks to the high school pupils.

Mr. Beanland was pharmacist for the Hughes Drug store in Grenada some years ago and has many friends here who always think of him with more than pleasure.

Mrs. Beanland is the daughter of Rev. Mr. Williams, a minister of the Methodist church.

The Sentinel had the pleasure of enjoying a visit from Mr. Beanland during which he talked quite a little about Cameroun, Africa, for that is the name of the province where he is stationed. This province was under the dominion of the German government before the World War, but is one of the many provinces taken away from Germany and is now in the hands of the French. It is about as large as Mississippi and Alabama together and has a native population of 60,000.

These negroes, Mr. Beanland says, are docile. They are absolutely harmless and receive the white man and especially the missionaries, gladly. He says that they have a sort of religion and that they have a vague idea about the Ten Commandments. They say that their fathers sometime in the remote past had something which, after learning the Ten Commandments, they construe to have been them. These natives wear no clothing except just a strip around the waist. They have strict ideas on morality and any dereliction along this line is severely punished by the head man and the punishment is usually by flogging.

Mr. Beanland states that there were no venereal diseases among the natives until after the incoming of the negro soldiers sent there during the war by France and by England. The station and wealth of a man is measured by the number of wives he has. Mr. and Mrs. Beanland are located at Metet, a place of 500 natives and of five white missionaries. Mission schools are established all over the province. When one of these men with a great number of wives accepts Christ, he gives up all of his wives except one.

There is one thing about the mission work that perhaps many do not know, and that is there is no overlapping by the different churches. For example, there was a general

(Continued on page 5)

A Vice President and (or) Secretary for, and residing in, each County in the North Mississippi Fair District.

The President, Vice President, Secretary, Asst. Secretary, Treasurer and Assistant Treasurer shall be white residents of Grenada County. The Vice Presidents and Secretaries mentioned in the preceding paragraph shall be white residents of the respective counties for which they are appointed.

No officer or director shall be paid any salary or fee except the Assistant or Corresponding Secretary, whose salary shall be fixed by the Board at not to exceed twenty-five dollars a week.

The President shall appoint a Care Committee of five (5) women, residents of Grenada County, to whom all requests for assistance shall be referred. This Committee shall investigate each appeal and report its findings and recommendations to the Board for its guidance.

These By Laws may only be amended at an annual meeting or adjournments thereof.

FARMER GIVES INTERESTING VIEW OF TAXES

District Five Citizen Endorses Sentinel's Course in Showing Where Tax Money Goes. The Folly of Maintaining Useless Offices. Most Sensible Discussion of the Real Business of Running County and State Governments.

Editor Sentinel,

I wish to commend you in your efforts to show the people where, without decreasing the efficiency of the State government, certain offices may be abolished, and you have only hoed out the first row in the field which is foul with weeds called by the names of board of this or that, commissioner of so and so, etc., etc.

It is useless for a father to rail at the Providence which causes the withering hand of disease to be laid on his son, unless reason suggests a suitable remedy and science applies the remedy. Likewise it is useless to stand in disgruntled groups on the street corners or at the cross roads and "cuss" about high taxes, unless we suggest a remedy, and, most important, apply it.

The ships of state ranging from the huge dreadnaught representing the Federal government to the unstable dug-out representing the beat or township government are so loaded with boards, commissioners, committees, secretaries, assistant secretaries, etc., etc., that they can barely function. We have too much government. The creation of each board takes men from the field of productive endeavor and places them among the non-producers (government never produces anything.) It does not stop there for the personnel of the board must be paid and by a diminished number of producers.

The following is fundamental: (1) The way to reduce taxes is to reduce governmental expense. (2) The way to reduce expenses is to reduce expenses. The place to begin is at that place where the service rendered contributes least to the general welfare.

The governmental functions whose abandonment you urge are, in theory at least, good things. In fact, the proponents of any projected governmental activity can show the theoretical advantages of their plan. This is, at best, but an imperfect world, and we but delude ourselves if we expect the government to cure all of our ills or to smoothe all of our rough places. We can not have all of the good things that our politicians think we need, for good things come high. Let us, therefore, eliminate some of the least helpful of the state agencies.

The various useless appendages to our County, State, and Federal governments are the mice which are gnawing the cheese of our prosperity. Slay the mice and save the cheese! The Grenada Sentinel will, I am sure, continue its ceaseless fight for abolition of useless offices and its result, lower taxes.

Though we delude ourselves into the belief that we have valuable property, yet cold logic, in many cases, will demonstrate that much landed property is valueless. Much property does not produce an income exceeding the taxes on it; the value of any property, aside from sentimental or other non-monetary value, depends on the net income from it; if the net income is nothing, it follows

that the value is nothing. Taxes have risen to such alarming heights that it is a stubborn fact that they have pushed the value of much property perilously near the vanishing point. Truly, as some great man has said, "The power to tax is the power to destroy". The confiscatory taxes now levied are rapidly leading the county, the State and the Nation to financial ruin. Let Grenada County and the State of Mississippi lead the way to greater and better days by demanding the closest scrutiny of all expenses and rejecting all those that are not absolutely necessary. The ability to satisfy every material want is vested only in the wealthy; but the toiling, sweating, tax-ridden masses, for whom I speak, yearn for and demand a load that they can bear.

I heard the owner of a good, level, fertile farm in this county say, jestingly, that, rather than own the land and pay taxes to the State, he would be willing to give the land to the State if the State would pay taxes to him. Though he spoke in a jesting vein, a cold analysis of the facts would, no doubt, have shown that such an exchange would have been of financial benefit to him.

Let us have good roads whereon our products may flow uninterruptedly to market and on which the conveyances which carry our children to school may travel without delay; let us have splendid schools where our children may be equipped to compete without educational handicap, with any anywhere. But, let us, on the other hand, cut (and, if possible, eliminate altogether) to the uttermost extent every other expenditure. Let us elect only such public officials as pledge themselves to a program of economy. To him who seeks office and whose principal plea for our suffrage is that he needs the office for the salary attached to it, let us turn a deaf ear and a hard heart. Though I do not advocate such a radical program, yet it would be better for us to pension such office-seekers and permit them to bask in the shade of their own gourd vines in the peace and tranquility of home life, than to entrust to men of such ephemeral qualifications the conduct of our public affairs. Remember, a vote for sympathy is, oftentimes, a vote for disaster.

Having retired, as you know, from the political field, it can not be said that I write this for personal political aggrandisement. I write it merely for the consideration of those who this year must select officers to conduct the affairs of our county and of our commonwealth. If it causes only a handful of folks to pause and think, it shall not have been written in vain.

Though I am an HONEST FARMER, though I embody VOX POPULI, though I might properly call myself a CONSTANT READER of your valuable paper, you need not use any of those pseudonyms, but, rather, content yourself by printing it as I sign.

WHYTE WHITAKER.

Holcomb, Miss., March 18, 1923.

NATIONAL COMMANDER COMING THURSDAY

The local post has about completed preparations for the entertainment of Alvin M. Owsley, National Commander of The American Legion, and his party who will arrive in Grenada next Thursday afternoon at one o'clock and will be guests of the legionnaires until 4:45 the same afternoon. Immediately upon arrival, the visitors will be tendered a luncheon at the Planters Hotel which will be attended by members of the local organization and a few invited guests. The preparation of the repast is in charge of the ladies who may be counted upon to make the affair a thoroughly delightful one.

At 3:00 o'clock, Mr. Owsley will address the public at Grenada Opera House and, from his speeches elsewhere in the country, what he will have to say will be of interest to everyone in his audience. Those who have had the privilege of hearing him speak, say that his utterances are

powerful and eloquent in their appeal for true Americanism and that his hearers cannot help but give strict attention from beginning to end.

With the National Commander, will be the commanders of the state departments of Mississippi and Tennessee, as well as other notables in legion affairs. Large delegations from neighboring legion posts are expected to be in Grenada for the occasion. All the business houses of the town will be closed from 2:45 to 4:45 in order to give everybody an opportunity to hear the distinguished visitor.

Mr. Owsley is the head of perhaps the strongest organization in the United States, an organization whose importance in national affairs is growing more and more every day, and it is indeed an honor and a privilege to the town to have him here as its guest.

Frequent Headaches

"I suffered with chronic constipation that would bring on very severe headaches," says Mrs. Stephen H. Kincer, of R. F. D. 1, Cripple Creek, Va. "I tried different medicines and did not get relief. The headaches became very frequent. I heard of

Thedford's BLACK-DRAUGHT

and took it for a headache, and the relief was very quick, and it was so long before I had another headache. Now I just keep the Black-Draught, and don't let myself get in that condition."

Thedford's Black-Draught (purely vegetable) has been found to relieve constipation, and by stimulating the action of the liver, when it is torpid, helps to drive many poisons out of your system. Biliousness, indigestion, headache, and similar troubles are often relieved in this way. It is the natural way. Be natural! Try Black-Draught.

LESSON FOR APRIL 1

THE WALK TO EMMAUS

LESSON TEXT—Luke 24:13-31.
GOLDEN TEXT—Why seek ye the living among the dead? He is not here, but is risen.—Luke 24:5-6.
REFERENCE MATERIAL.—Matthew 28:1-10; Acts 2:22-36; I Corinthians 15:3-20; Colossians 3:1-4.
PRIMARY TOPIC—A Walk With Jesus.
JUNIOR TOPIC—Jesus as a Companion.
INTERMEDIATE AND SENIOR TOPIC—Life With the Risen Lord.
YOUNG PEOPLE AND ADULT TOPIC—What Christ's Resurrection Means.

I. The Walk of Two Discouraged Disciples (vv. 13-15).

Emmaus was seven and one-half miles northwest of Jerusalem. Just why they were walking this way we do not surely know. Perhaps their home was there, or they were merely walking to seek relief from their stunning sorrow. If they had believed what Jesus told them about His death and resurrection they would have escaped this great disappointment. Unbelief causes many heartaches and disappointments. One of these disciples was Cleopas, but the other is unknown. The topic of conversation was the tragedy of the cross and the resurrection rumors. So little had His teaching about His resurrection impressed them that the reports which the women brought were as idle tales to them. If they had believed what He said about coming forth from the grave they would have been expecting to hear just such reports as were being circulated.

II. The Unrecognized Companion (vv. 16-24).

1. Who He Was. Jesus. While they reasoned together on the wonderful events of the last few days on this journey, Jesus joined them. Even when He questioned them concerning their sadness they did not recognize Him. Many times we are so taken up with our sorrows and disappointments that we do not recognize Jesus though walking by our side. How grieved He must be to be unrecognized as He walks by us in our sorrows and trials.

2. His Question (v. 17). Perceiving their sadness and perplexity He sought to help them by calling forth a statement of their grief. This question surprised them and caused them to infer that He was a stranger in Jerusalem. The condemnation and crucifixion of the great prophet of Nazareth were so recent and notorious that no one they thought, who had lived in Jerusalem, could be ignorant of them. One valuable aspect of the unbelief of the disciples was that it revealed the fact that they were not credulous enthusiasts but hard to convince. Out of this incredulity developed the unshaken faith in the word of the resurrection.

III. The Scriptures Opened (vv. 25-35).

1. His Rebuke (v. 25). He did not rebuke them for not believing the strange stories they had heard, but for ignorance and lack of confidence in the Old Testament Scriptures. They had accepted only such parts of the Old Testament as suited their notions. Men and women who do not believe all that the Scriptures say, especially about the work of the blessed Savior, are entirely blameworthy. The very center and heart of the Old Testament Scriptures is the death and resurrection of Christ. It is ignorance of the Scriptures and unbelief of the wonderful and complete redemption wrought by Christ that robs us of many joys, and power and efficiency as workers for Christ. Christ will be the teacher of all who will open their hearts unto Him.

2. Jesus Recognized (v. 31). While sitting at meat with the disciples their eyes were opened as they saw Him bless the bread and distribute it to them. We, too, can see the Lord on such common occasions as eating a meal if we have open eyes. Indeed we ought to see Him when eating, selling, buying and in our recreations for He has promised us His presence.

IV. The Effect Upon the Disciples (vv. 32-35). They were so filled with joy over this revelation of the Savior that they hastened back to Jerusalem to tell the other disciples of the word of His resurrection. Those who have had the Scriptures opened to them touching the death and resurrection of Christ cannot help but hasten to make it known to others.

Conciseness in Speaking.

Every man should study conciseness in speaking; it is a sign of ignorance not to know that long speeches, though they may please the speaker, are the torture of the hearer.—Felt-ham.

The Quarrel.

Beware of entrance to a quarrel but, being in, bear it that the opposer may beware of thee.—Shakespeare.

SOME SMILES

A MAGNET FOR SORROW

"Is it your practice to go about looking for trouble?"
"No," replied Mr. Grumpson. "It has been my experience that if a person will stand in one place long enough, and look as if he had no friends and no influence, trouble will just naturally gravitate to him."

Poor Chance for Him.

He—What would your father do if I told him I wanted to marry you?
She—He'd refer the matter to me.
He (hopefully)—And what would you do?
She—I'd refer the matter to Mr. Smart, who proposed to me and was accepted while you were trying to make up your mind.

Free Rides.

Blackstone—Jenks and his wife enjoy a motor trip every Sunday morning.
Webster—Why, I never knew they owned a car.
Blackstone—They don't. But Jenks has been corresponding with real estate agents lately.

Resourceful Woman.

Artist—That clumsy girl has flicked a dust cloth across the fresh paint on my new picture. It is nothing but a smear.
His Wife—Never mind, dear. Call it a country scene viewed from a speeding automobile.

After the Reception.

"Some lady left her hat."
"Seems odd."
"I'll say so. Don't see how a lady could walk away without her hat in these dry days."
"Hold on."
"Hey?"
"The lampshade is missing."

Hiram Explains.

Hank—I don't understand them thermometers.
Hiram—It's simple enough. You see, when it gets darn cold the mercury sorter huddles together down in the bottom, so's to keep warm.—Boston Evening Transcript.

Extreme Measures.

"I understand you have taken up the study of hypnotism."
"I have," replied Senator Sorghum. "A lot of the folks out home are becoming so dissatisfied the only way to get 'em to vote for me will be to mesmerize 'em."—Washington Star.

FLATTERER

She (relating experience)—Really, for a time I was quite beside myself.
He—You had a charming companion.

True Indeed.

Many a man backs out of wedlock when he shouldn't.
Many more are backed into it, else they wouldn't.

Unnecessary to Repeat.

Wife—John, I'll have to discharge the cook. She uses such dreadful language.

Husband—What kind of language, dear?
Wife—Well—oh, the same kind you use.—Pathfinder.

Father Makes 'Em.

Tutor—Of course, I admit your son is extravagant. But you must make allowances. He's young.
The Father—That's all right! But the more allowances I make the quicker he spends 'em.

When Truth Will Out.

Mrs. Exe—Some women can never believe a word their husbands say.
Mrs. Wye—Well, I'm not quite so badly off as that—my husband talks in his sleep occasionally.

Stop, Look and Listen.

Subbubs—I've started riding into town in my car. Got tired of missing the train.
Townley—Well, look out that the train misses you.

Love.

Griss—So you and Jack don't speak. What's the trouble?
Chris—We had a dreadful quarrel about which loved the other most.

A Remedy.

Patient—Doctor, what'll I take to cure my kleptomaniac?
Doctor (after deep thought)—Don't take anything, and you'll be cured.

Great Engagement Ring.

Bob—How satisfied a girl seems when she has got an engagement ring.
Bob—Well, it's a good thing to have on hand, you know.

SUPT. W. F. BOND

HAS ANNOUNCED

Chooses the Newspapers as a Medium of Campaign as is Busy in Office

Jackson, Miss., March —State Superintendent Bond today makes formal announcement as a candidate to succeed himself, and selects the columns of the newspapers as the medium of "telling the people." Until recently it was not thought that Prof. Bond would have opposition, but a few days ago Prof. F. B. Woodley, of Hattiesburg, announced that he would be a candidate and that he will make an active campaign of the state.

The following is the announcement of Supt. Bond:

I am a candidate for reelection as State Superintendent of Education.

I choose this medium of telling the people of the State of my candidacy and soliciting their cooperation and support, because between now and June 1, I shall be too busy attending the business of the office to make an active campaign. In 1919 you elected me to serve as your state superintendent. I have been "on the job"

ever since I took office in 1916 and I do not propose to neglect my duties now. Until the 600,000 school children and 12,000 teachers of the state finish the present school session and begin their summer vacations, my duty is serving them and I shall continue to do so to the very best of my ability.

I have tried to adopt as a central rule of life that high ideal of duty which General Lee held out to his son as the cardinal principle of his life, when he wrote "Duty is the sublimest word in the English language."

On the famous "Dark Day" in 1781 when night seemed suddenly to descend at midday and people thought the end of the world was at hand, Colonel Abraham Davenport rose in the Connecticut Legislature to protest against adjournment. Whittier thus phrased his words:

"...this well may be The day of judgment which the world awaits,

But be it so or not, I only know My present duty. . . . Let God do His work, we will see to ours.

Bring in the candles!"

And so I say to my friends throughout Mississippi: I intend to do my duty here; do your duty in your community and get others to do theirs and we need not fear the outcome.

My friends have been wiring and telephoning and writing their offers of support. For all these I am profoundly grateful. Until the schools close, my candidacy is in the hands of my friends, and I shall appreciate every effort expended in my behalf. After that date I shall go before the people to report upon my stewardship. Even then I do not expect to indulge in any personalities whatever. The school system of the state of Mississippi is far too important an element in the state's life to be dragged through the mire of factional politics or made the basis for acrimonious personal issues. I for one do not expect to commence it.

My record is an open book. When I took charge of this office I endeavored to go ahead with the progressive policies of my predecessor, Hon. W. H. Smith, and to initiate others as opportunity was presented. In 1916 there were 290 consolidated schools in the state. Today there are 770. Then there were six teachers' homes, today over two hundred. During my seven year tenure of office the school term has been increased an entire month in length and there has been a 30 per cent increase in the enrollment in the white schools. An equalizing fund of more than a million dollars per year has been provided, its constitutionality upheld through all the courts, and the money made available for the poor counties so as to give every white child an equal opportunity for education.

Hon. John J. Tigert, United States Commissioner of Education, stated not long ago in a public address that Mississippi has made more progress educationally in the last three years than any other state in the union.

It is upon this record of constructive achievement and worth while effort that I stand for reelection. Favored by your suffrage in 1920 I have sought always to serve the best interests of all the people and it is

with this thought in mind, and the further desire to see plans and programs already undertaken, carried through to success, that I offer for reelection as State Superintendent of Education and request the favor of your influence and support.

Sincerely your friend,
W. F. BOND.

PLENTY OF HAPPINESS
AT SANATORIUM

If you ever visit the Mississippi Tuberculosis Sanatorium, you will be happily surprised to find that it is not a "cold" institution filled with disconsolate invalids, gloomers, grouchers and calamity howlers, but a big family of smiling men and women trying to make life a bit brighter and happier for those who are fighting the battle of tuberculosis.

If there are aches in our hearts we try not to wear them on our faces and no matter how much the suffering has been you could hardly find a jollier crowd of people, day after day, anywhere in the world.

There are hundreds of amusing things that happen among the patients and no day passes without hearing ringing laughter from some of the cottages and wards.

Happy discussions, arguments, jokes, writing letters and reading take up most of the recreation hours and a better spirit could not be wished for by the officials in charge of the institution.

The patients of the Sanatorium, working in cooperation with the staff and the State Board of Health, are putting more frowns on the faces of undertakers than all the institutions in Mississippi combined and as the capacity grows larger this spirit will eventually control tuberculosis in our State.

GIRLS' HI-Y CLUBS

Jackson, Miss., March —The Girls Work Department of The National Young Women's Christian Association in Mississippi announces through its Jackson office, 224 East Capitol Street, three coming conferences of interest to all Girl Reserve and Girls Hi-Y clubs in the state. The Magnolia Girls' Reserves are to entertain senior high school girls at a week-end conference April 27-29. This is a vocational conference at which all kinds of business and professional lines of work will be presented by women who are a success in the fields represented. Miss Earline White, business manager of The Woman Voter and an experienced newspaper woman, will present journalism as a vocation. Other speakers will be announced later.

Castalian Springs Hotel, three miles from Durant, Miss., is the location of the first camp-conference of girls this coming summer. The date is May 28 to June 5. This resort hotel will be given over exclusively to high school girls and their leaders during this period. There is a fine outdoor swimming pool, a lake fed by a flowing stream, and there are many pine clad hills near this hotel, making it an ideal spot for a recreational and inspirational camp.

The second camp-conference is to take place at Gulf-Park College, June

Too much Hoover in sugar. It is our opinion that the country has had too much Hoover in a great many things during the past few years.

Well, the new tariff law passed by the Republican administration has enabled the sugar combine to pull the leg of the American people to the tune of about \$300,000,000. All Republican tariff laws are leg pullers.

Medical authorities state that 124 boy babies and 143 girl babies die out of every 1,000 before they are one year old. This fact causes an exchange to observe that there must have been great anxiety among the mothers in old Tut's day.

If there is evolving in man while he lives, is it not just as reasonable to suppose that he remains evolve after death, and that it is therefore, very reasonable that old Tut's remains and belongings which are said to have been recently unearthed in Egypt are those of a lizard or of some other "varmint."

"The Mississippi Coast Rotary Number" of the Biloxi Daily Herald was a splendid paper. The Biloxi Herald is always a good paper and especially do we enjoy its editorial utterances, but this special edition was one of particular merit and a most excellent advertisement for the coast section of Mississippi. Rotarians should especially appreciate the edition. It made a splendid showing for this organization, an organization that writes "service" to its fellows foremost in its creed.

Our sincerest sympathy is extended Mr. C. N. Harris, editor of the Madison County Herald, over the death of his father who died only a few days ago at Edwards. Mr. Harris was a highly cultured man. He was a noble soul. He was lofty in his ideals yet intensely human. We had the privilege to be associated with him rather closely at one of the State Press meets and learned to admire him not only for his intellectual worth but for those beautiful traits of character which are so necessary in every well rounded man. In the years ago he became a member of the church and one did not have to associate with him long without learning that he was depending on heaven for the richest and sweetest things in life.

The American Economist of March 16 undertakes to tell in its first article "Why wool is high". It gives figures of the Bureau of Commerce that show that the average production of wool for the years 1909 to 1913, inclusive, was 2,545,565,000 pounds; that the production for 1921 was 2,354,735,000 pounds and for 1922, 2,270,737,000 pounds, or 84,000,000 pounds less than for 1921 and 275,000,000 pounds less than for the average for the years 1909 to 1913 inclusive. But it must be remembered that Europe is not buying wool like it did prior to the World War and that even in this country the per capita consumption of wool is less than before the War. The truth of the whole business is that the tariff law, put the price of wool up and no amount of camouflaging about production can hide the nefariousness of the protective tariff which permits a few to rob the many. But that is Republicanism, unadulterated.

NEGRO EITHER KILLED OR ACCIDENTLY BURNED

A negro woman met her death either at foul hands or by falling in the fire on the farm of J. L. Hill near Hardy at an early hour Tuesday morning. Her name was Jane Jackson and her husband's name is William Jackson. Her husband states that he left the house at an early hour, after having built a fire, and went on an errand somewhere and

that when he returned he found his wife lying with her face on the coals in the fire place and her hands in the hot embers about half way up to the elbows. He pulled her out of the fire, he states, and covered her with a sheet and notified some neighbors who in turn notified Sheriff Dogan who repaired to the scene with a jury and the County Health officer, Dr. R. A. Clanton. The coroner's jury made such investigation as it could, but deferred a final report until Sat-

urday of this week. In the meantime the Sheriff took the husband in custody and he is now in jail. The mother of the dead woman was very pointed in accusing the husband, but thus far, outside of the exceedingly peculiar circumstances of the woman's death, there is little to lay the responsibility on the husband.

C. H. ALDRIDGE OF MONTGOMERY COUNTY

Mr. C. H. Aldridge of Montgomery County has authorized The Sentinel to place his name before the voters of this County as a candidate for the office of Floater Representative for Grenada and Montgomery Counties. By courtesy, this office this time goes to Montgomery County, this County having furnished the representative in the person of Hon. B. S. Elliott at the last election.

Mr. Aldridge is a successful farmer and business man, and is regarded as one of the splendid citizens of Montgomery County. He is level headed in all things and his past record would seem to justify the belief that if elected, he will endeavor to make such a representative as he has a farmer and that the same business judgment and good old fashion common sense will be the rule and the guide of his action. And if the country ever needed old time practical methods and common sense, it needs it today.

Mr. Aldridge will no doubt visit Grenada County and seek to know the people while at the same time giving his ideas about such matters that he regards of greatest importance to be considered by the next legislature.

GOOD FRIDAY AND EASTER DAY SERVICES AT ALL SAINTS CHURCH

On Friday (Good Friday), from twelve to three o'clock, Christ's "Three Hours Agony" will be the subject of an introductory and seven addresses on "The Seven Last Words" upon the Cross. Come and stay as long as you can.

On Easter Day, the greatest day in the Christian year, the following services will be held: Holy Communion at 7:30 a. m.; a short Sunday School session at 9:45 a. m.; Easter Festival Morning Prayer and Holy Communion at 11 o'clock. Our efficient choir, augmented by others, have prepared a number of beautiful anthems for this service. Mrs. Dexter, of Grenada College, will sing the offertory solo. At 4 o'clock in the afternoon Yalobusha Commandery, No. 28, Knights Templar, of this city, will hold their annual Easter service. They will march in a body from Masonic Hall, and all Sir Knights are ordered to assemble there, and participate in this service. Everybody in Grenada is welcome to any and all services.

R. W. Emerson, Rector.

INTERESTING BIBLE INSTRUCTION

At Presbyterian Church This Week.

Beginning last Sunday afternoon, Mrs. Margaret T. Russell has been lecturing on various phases of Bible life at the Presbyterian church.

The first lesson was on "The person and work of Christ". The concluding lesson Thursday evening was "From fishermen to fishers of men." Mrs. Russell's audiences have been fairly good. A large number of ladies have attended and a number of men and all who have heard her pronounce her as having her subjects perfectly in hand and as presenting them most persuasively and convincingly.

The Bible has stood the test of ages. There are being more Bibles printed than ever before in the world's history. But it seems that too many appear to act upon the theory that the mere purchasing of a Bible, having one around, is about all that is needed. If they did the same way about their food, just buy it and let it lie in the kitchen closet there would be thousands of hungry stomachs.

Too many know as much of the Bible outside of the story of the Garden of Eden, Jonah and the whale, the crossing of the Red Sea, the building of Noah's ark and the flood, as they do about original Hebrew. They may go to Sunday School and to the preaching service, but the knowledge of the Scriptures they get is a matter of local application, a sort of osteopathic treatment. It is believed that Mrs. Russell's visit to Grenada will be worth much to the whole community.

LOSS OF SURGICAL INSTRUMENTS

Quite two weeks ago, Dr. J. S. Sharp lost a case containing a lot of valuable instruments that can have no value to any one except a physi-

cian. There is some sentiment attached to one of the instruments which was purchased by his father.

The Sentinel has been authorized to say that Dr. Sharp would pay a big reward for the return of the case and instruments. If perchance they have fallen into any hands who may not know whence they came or anything else about them, Dr. Sharp states that he will pay the reward without asking questions. The case and instruments could be left at The Sentinel office or carried to Dr. Sharp's residence or office.

Dr. Sharp is confident that the case was lost on Bellstreet or somewhere between College street and Main street in the vicinity of the residence of Mr. J. T. Thomas.

NEXT WEEK NEGRO CLEAN UP WEEK

To the Negro Public of Grenada:

All over this country, the week beginning April 1st, and ending April 7th, will be known as Negro Health Week.

You are urged to clean your premises from front to back, inside and out. We are asking the city authorities to assist us in this work and let the wagons remove whatever trash is placed on the sidewalks for removal. Too, we ask those having rental property to assist by placing a little lime or other disinfectants at the disposal of their renters.

At the school building every day from 10:30 to 10:45 a. m. will be talks on health and sanitation.

Please help us to make this a great week of cleaning.

116,080 FORDS FOR FEBRUARY Shortest Month Brings New Sales Record.

Detroit, Mich., March 24.—With 116,080 Ford cars sold at retail in February a new record for the shortest month in the year has been established. February sales exceeded those of January by more than 15,000 and marked the eleventh month in which Ford sales have topped the 100,000 line.

This sales record bears out predictions made in the opening of the year that an acute shortage in Ford cars is certain and this shortage is expected to be felt within the next two months with he increased volume of car buying which is always attendant upon the spring months.

Even the high production schedule set for the Ford Motor Company's factory here, which will reach 6,000 cars and trucks a day about April 1st, we will be unable to meet the apparent demand for Ford products. Anticipating a great increase in the demand for Ford cars during the present year the factory here laid plans for increasing production to the 6,000 car a day schedule and since January first had been constantly speeding up manufacture to reach this figure. Demand so far has been of such great proportions as to absorb nearly all production, and stocks in hands of dealers are at present the lowest they have been in months.

February sales of 116,080 cars were made in the face of unfavorable weather conditions in many sections of the country which tied up freight traffic and prevented many deliveries. This was particularly true throughout the Northwest, the northern tier of states and in New England. In California too, cold weather during a part of the month had its effect upon car sales.

Yet with even these unfavorable conditions, the February sales topped those of January by 15% and set a new high record for mid-winter selling.

With February the eleventh month in which Ford car sales have gone over the 100,000, the total for this period close to 1,250,000 cars.

Peak car sales usually are reached during the summer months with drops in the fall and winter. This feature of automobile absorption by

the buying public has been completely changed during the last few months through the activities of the Ford dealer organization which has raised the "peak" line to include every month in the year.

MARRIED

On Thursday, March 22, Mr. Frank W. Gee and Miss Dorris Pauline Brooks were married at the home of Mr. and Mrs. H. W. Alexander in Grenada. Rev. W. E. Farr pastor of the First Baptist church officiating. Mr. Gee is employed at Glenwild and is a worthy young man while his bride is a daughter of Mr. and Mrs. G. L. Brooks who live about ten miles south of Grenada. There were no parental objections, yet the mother of the fair young lady felt that she just could not see her daughter pledge her life to another, hence the marriage elsewhere.

ARE COUNTING ON GRENADA COOPERATION

The Sentinel has been commissioned to state that those ladies who by circumstance are charged with looking after the preliminaries for the entertainment of the State Federated Clubs which is to begin Monday evening, April 16, and remain in session three days are expecting a real Grenada cooperation, and that means a great deal, in entertaining the delegates which will number perhaps two hundred or maybe more. These ladies will come from all over the State. Besides there will be representatives here from the National Federation, and altogether it may be said that there is a feast of lady oratory in store. Important questions of both civic and political significance will be considered, and The Sentinel bespeaks for these splendid women the best Grenada can do, and Grenada can do and always does for her guests 100 per cent.

AFRICAN MISSIONARY AND WIFE VISIT HERE

(Continued from page 1)

conference of all African missionaries and this province was assigned to the Presbyterian church.

The temperature of Cameroun ranges from 70 to 85-degrees. It is intensely hot there from 11 o'clock a. m., to 3 p. m. The people, or most of them do, live in houses built somewhat on the bungalow plan with a thatched roof about 18 inches in thickness. The thick roof protects the inmates of the home from the heat. The natives live in very rude little huts with thatched roofs.

Mr. Bealand states that there is lots of game there. The game consists of the elephant, wild cattle, which includes the cow with the hump, wild hogs, antelopes of which there are some nearly twenty species and they are especially delightful meat. These antelopes vary in size from the size of a rabbit to that of a horse.

The guinea, just such as are domesticated here, are wild there. Mr. Bealand says that they serve as a clock. That they cackle every morning at 4:30 and then at five o'clock. The leopard is common there, but does not attack a human being unless it is wounded or unless the animal finds one in a remote forest alone. The elephant bothers no one. There are pheasants but no squirrels such as is known in America.

There are some reptiles, though not as many as one might expect to find in a tropical country. The python is the most dreaded snake. The natives have made snake-killing a business. War on snakes is a part of their trade and as a result, there are few snakes there as compared to some centuries ago.

There is a variety of fruit such as the pine apple, the orange, the tangerine, banana and other fruits known to tropical sections.

The natives cultivate their little truck patches and do a lot of trading. The rubber tree grows in abundance and rubber is one of the big sources of revenue.

The months of March, April, May and June are the rainy months and these are followed by two months of drouth then there is some more rain. The German government had good roads built in the province, though they do not reach many localities, however, Mr. Bealand states that the roads rarely get muddy as there is so much sand in the soil.

Africa is said to have a population of 165,000,000 people and Mr. Bealand thinks that it will be greatly developed during the next 100 years and that marvelous things may be expected to come out of Africa, a country rich in soil and with abundant forests.

The mahogany is a very common tree in Cameroun. Homes are built out of it and it is used even for fire wood.

But with all that Mr. Bealand states about that country, one must conclude that it takes a great deal of heavenly grace for one to go away out there, away from home and family and friends and preach to almost a wild people where there is little companionship except with the spirit of the Master and with one's own conscience. Of course these missionaries see their fellow-workers every occasionally, but yet they are practically alone. In the little town where Mr. and Mrs. Bealand are there are but five white people.

It will be remembered that Mary and Joseph took the Babe Jesus into Africa to protect him from Herod, and that even prior to that period, there was much to take place in the north east part of Africa that forms a very important part in the history of the world.

The friends and all in Grenada bid these good people God speed and let it be hoped that they will be generously remembered by many in Grenada in petitions to the Giver of all good things.

CITY TAXES DELINQUENT AFTER MARCH 31

The tax payers of the City of Grenada, Mississippi, will please take notice that all taxes will be delinquent after March 31, and that damages will be added. So I hope one and all will take notice and save me the embarrassment of adding the damages. I have no alternative after March 31. Quite a large number have not yet paid and it might be that I could not wait on all during the last few hours.

Mother and Daughter Are Both Enthusiastic

They Declare Stella Vitae Is Unequalled in Restoring Suffering Women to Health and Happiness.

"My daughter and I are both most enthusiastic in our praise of Stella Vitae, for we have both tried it and it has benefitted us more than anything else we have ever taken," said Mrs. Lula Johnson, Kingston, Route No. 3, Rome, Ga.

"For a long time my health had been in bad shape and getting worse. Terrible headaches from which I suffered almost drove me distracted and at times I thought I just couldn't stand that awful pain in my back. Spells of dizziness would come on without warning and before I knew it I would turn right blind and almost topple over. My nerves were in such a wretched condition that I felt like screaming out at the least little noise like the scraping of a chair or shutting of a door, and it would set me to trembling like a leaf.

"I was all the time trying different things in the hope that I might hit upon something that would relieve my sufferings but never found what I was looking for till I got hold of Stella Vitae, and that certainly filled the bill, for it put me on the road to good health and soon ended

my troubles.

"My daughter decided to try it, too, and it certainly gave her the strength and vitality she needed during the time of her expected motherhood. We are both glad to recommend Stella Vitae to women in failing health and who are irregular in their periods."

It is not intended that Stella Vitae replace the physician. Nor is there any claim made that it will perform unheard of miracles, in cases where serious diseases have been allowed to run on unchecked for a number of years, imbedding and fastening itself on a woman's system. But in overcoming serious female troubles in their early stages, and in correcting the many common complaints of women, it is declared that Stella Vitae is without rival.

Note—Stella Vitae may be obtained from any druggist and is sold upon the positive guarantee that the purchase price will be refunded if it fails to bring relief. Druggists are supplied from the Van Vleet Mansfield Drug Co., Memphis, Tenn.—adv

JACK SMITH A CANDIDATE FOR CONSTABLE

The Sentinel is authorized to announce Jack Smith as a candidate for constable for district 1.

Mr. Smith was reared in Cascilla neighborhood, Tallahatchie County, and comes of a family noted for their kindness of heart and for a peculiar loyalty to the better thinking element of their neighbors and the people of the County. He comes of a family noted for visiting and caring for the sick and for being ever ready to respond in personal work and effort to the needs of any in distress and the best demands of their community. This is a fine tribute to any family and to any man. All these characteristics are fittingly exemplified in the character and in the life of Jack Smith. He is considerate. He is not so wise that he does not realize the need of the advice and counsel of good friends. His ears are open to the timely admonitions of good men, and if elected constable, he may be counted on to follow that line of duty that will be approved by the best thought of the community. If Jack Smith fails anywhere on the discharge of any official trust, it will be either an error of judgment or because the best citizenship have failed to advise with him and to give him that counsel that every man needs in meeting official duties.

The office of constable is an important one, yet it can be made an office to irritate a community and in a way one of persecution. That officer which pilfers to hunt up the trivial things and closing his eyes to the graver offenses, lest he arouse the ire and the opposition of the supposedly more potential, has a misconception of his duty and is doing the public as well as himself a gross injustice.

Mr. Smith states that he proposes to consult the voters of the beat and to personally present his candidacy.

LAMKIN RESIDENCE BURNS

Last Sunday morning about 11 o'clock the residence of Mr. T. P. Lamkin on the corner of Margin and Poplar streets was found to be on fire. The fire alarm was turned in and neighbors and friends responded at once. The fire evidently had been in progress for some time. It started in the garret or between the ceiling and the roof in the kitchen, and had gained such headway that it was impossible to extinguish the flames until the roof and the ceiling as well as a great deal of the walls were burned. The fire company did splendid work. It could hardly have done better. Nearly all the furniture and household belongings were saved. It is understood that the loss is fully covered by insurance. It is Mr. Lamkin's purpose to rebuild at an early date.

PROF. WHITFIELD VISITS GRENADA

Candidate For Governor Stops Over In City

Prof. H. L. Whitfield of Columbus, one of the four candidates for Governor of Mississippi, spent last Tuesday morning in Grenada. Mr. Whitfield was en route from points in North Mississippi to Greenwood where he made an address Tuesday night to the Women's organization. Mr. Whitfield, as is generally known, was principal of the Steens Creek high school when he was ap-

pointed State Superintendent of Education by Gov. McLaurin in 1898, or thereabout, to succeed Prof. A. A. Kincannon, who was named as the president of the then Industrial Institute and College for women at Columbus. Mr. Whitfield remained State Superintendent of Education until Mr. Kincannon was named during the Vardaman administration as chancellor of the University and immediately thereafter Mr. Whitfield was again selected, to succeed Mr. Kincannon. Thus it may be properly said that Mr. Whitfield has been in intimate touch with the school work and the school life of the State for nearly thirty years. At present he is in charge of a farm and school a few miles out from Columbus where the boys from the Masonic Home are being trained. This farm and home is provided by the many times millionaire, B. B. Jones, who is a great friend of Mr. Whitfield.

Mr. Whitfield states that he is getting around to see the people over the State and he seems to be more than encouraged over the outlook. He very frankly agrees that the matter of taxation and the cost of running the state government is one of the big questions of the campaign and he states that he will endeavor to give the State a business administration, if elected.

Prof. Whitfield is one of the three candidates for Governor blacklisted by Gov. Lee M. Russell, the other two being Mike Conner and Judge Percy Bell. This blacklisting first made its appearance in a letter from Russell to some of his supposed friends telling them why they should vote for L. C. Franklin.

Prof. Whitfield shook hands around the public square and also visited the public school where he made an address.

The campaign seems to be slower than for years in coming up, and has hardly taken on color yet. But inasmuch as the election is only a little more than four months off, it may be expected to take on some pep at an early date.

DR. KIDWELL, OSTEOPATH TO MOVE

Dr. J. R. Kidwell, osteopath, authorizes the announcement that on and after April 1, his office in Grenada will be closed, and that he will move to Greenwood where he would be glad to see any from Grenada who may desire his professional services.

J. A. GIBSON FOR JUSTICE OF THE PEACE

The Sentinel has been authorized to place the name of Mr. J. A. Gibson before the voters of district 1 as a candidate for the office of justice of the peace.

Mr. Gibson is an honest, conscientious, upright man and deals with every subject according to his best judgment and according to the best lights before him, qualities highly essential to a fair and just discharge of the duties of the office he seeks.

Mr. Gibson is a quiet, unostentatious man, and has always stood for those things in society that have had the endorsement of the best and most serious thought of his community. That he will be faithful in the discharge of the duties of the place he seeks goes without saying. The Sentinel feels sure that the electorate of this district will give his candidacy the proper consideration.
